Data Source List

Use this template to record information you have gathered about our data sources. Please fill in the columns as follows:

Data: Name the data set.

Original Source: Where did the data come from?

Supplied Format: What format has the data been supplied in? E.g. CSV, relational database.

Extraction Method: How has the data been extracted from the original source?

Sensitivity: What is the audience for the data?

- *Public*: Data is intended for public use.

- *Internal*: Data is intended for internal company use.

- *Confidential*: Data is intended for specific individuals only.

Ownership: Which organisation or individual owns the data? Or is it publicly owned?

Data	Original Source	Supplied Format	Extraction method	Sensitivity	Ownership
Tree Data Set camden trees.xlsx	Council website	Excel file	Download	Public	Publicly Owned
Common Names tree_common_names .json	horticultural website	json format	scrape	Public	organisation
Environment camden_trees_enviro nmental.csv	Camden council assets	csv file	extract from assets database	Internal	organisation
